Subject: UCLA Single Sign On (SSO) Integration for CITI Program Training

January 11, 2018

Dear UCLA Research Community,

The Office of Research Administration (ORA) is pleased to announce Single Sign On (SSO) integration for CITI Program. This means you will be able to log into the CITI Program website using your UCLA Logon ID and password rather than a separate account, which will enable new tools to more efficiently track and verify required trainings.

In order to take advantage of these new features, please view the applicable guidance document below for details about how to link your existing account or how to create a new linked account:

[Link an Existing CITI Program Account via UCLA SSO](#)

[Create a New CITI Program Account via UCLA SSO](#)

We hope that these enhancements improve your experience managing your research portfolio and will help new users address training requirements more easily. Additional details will be provided through announcements in the coming weeks by various departments that use CITI Program for training.

Thank you,

UCLA Office of the Human Research Protection Program
