May 15, 2012: Education and Training Updates

Requirements for the CITI Refresher Course

OHRPP requires **Key Research Personnel** to renew their CITI training every 3 years. You should receive an email notice from CITI 30 days prior to the expiration date for your course, but you may also log on to the **CITI website** to see when you are due to take your refresher course. (Some investigators who were among the first to take the CITI training in 2009 may not have received these notices.) The refresher course consists of a series of preselected modules and/or elective modules and may be completed up to 90 days prior to the expiration date of your current CITI training.

If your study sponsor or other organization requires you to take the refresher course *more frequently than every 3 years*, or if have any other questions about the refresher course or special needs, please contact Kathy Wadsworth at kwadsworth@research.ucla.edu.

For additional information please refer to the **OHRPP Education and Training** website.
