OHRPP Updates

Edit Study Personnel & automated training check functions

Upcoming planned webIRB *temporary* shutdown

OHRPP Office Hours

Human Research News
As of July 1, 2021, webIRB has a new function that allows the PI, PI proxy, and study contact person to add or remove certain members of the study team *without submitting an amendment*.

As the same time (and to make the edit study personnel function possible) we launched *automated training checks* for key personnel with roles that require human subjects training.

- These checks will be done for initial submissions, AMs, CRs, and with the “edit study personnel” function.
- If training isn’t complete, you’ll get an error message preventing submission.

- We have a recorded training available for anyone who missed the Learn at Lunch presentation in July. You can find the training [here](#) (slide deck is [here](#)) with our other webIRB video tutorials:

How to prevent submission delays under the new functions:

1. Use the new “edit study personnel” function to remove any key personnel no longer working on the project.

2. Ensure that key personnel have their CITI account linked to their SSO.

3. Ensure that key personnel with multiple CITI account merge them into a single account.

4. Ensure that key personnel working on the project maintain current required training.
