

The background features a complex network of glowing blue lines and spheres, resembling a neural network or a data visualization. A central sphere is highlighted with a bright white glow and a dark blue circular cutout. The overall color palette is dominated by various shades of blue and white.

OHRPP UPDATE

SEPTEMBER 2024

BRUINIRB IMPLEMENTATION SUMMARY

- Migration of the bulk of webirb studies (full board and expedited) to BruinIRB occurred over the weekend of 9/7-9/8.
 - 4,291 approved studies with no open follow-on submissions were successfully migrated.
- PIs and Proxies for these studies were notified when a study is migrated.
- Batches of additional studies will continue to be migrated as open follow-on submissions are finalized.
 - Studies are only migrated once approved (initial submission) and all sub-applications (AM, CR, PAR) are approved/acknowledged

BRUINIRB IMPLEMENTATION SUMMARY

- For full board and expedited studies that have not yet been migrated, processing for the open submission will be completed in webirb, after which the study will be migrated to BruinIRB
- For exempt studies, investigators must request migration (but should only do so if they expect to need to submit a required amendment)

BRUINIRB IMPLEMENTATION SUMMARY

- A total of **4547** studies have been migrated as of today
- So far, investigators have requested 43 exempt studies be migrated. Those studies were migrated yesterday.
- ORIS has updated the SafetyNet RSC integration from the webIRB study to the BruinIRB study for relevant migrated studies

POST- GO LIVE

- We're in day 4 of the implementation and things are going well
- Moving forward, ORIS will migrate any studies newly eligible (completed the review process for any “in-flight” applications) for migration on Mondays
- OHRPP staff continue to be available for your questions, feedback and concerns

POST- GO LIVE ISSUES AND FEEDBACK

There have been a few hiccups on a small number of studies, but we are correcting issues as they come up in collaboration with ORIS

- Requirement for PI assurance with first continuation submission in BruinIRB
- Some issues related to Departmental Administrator access to all studies
- Migration reverted for small sub-set of studies where follow on submission approved 8/31- 9/6. All corrected.
- Some concerns shared about Agree to Participate requirement for all study staff.

OHRPP LEARN AT LUNCH

- *October 10, 2024 12-1pm* “BruinIRB Town Hall”
- [Registration link](#)
- Moderated/Presented by BruinIRB Implementation Team
 - Rebecca Flores Stella, OHRPP Asst. Director
 - Tonya Edvalson, OHRPP Principal Analyst
- Join our BruinIRB Implementation team to share your experiences during the first month of deployment, pose your questions, and offer feedback on BruinIRB and the deployment process. The team will respond to questions/feedback submitted as part of your registration and the session will include an open discussion.

RESOURCES

- Quick guides, recorded trainings, template protocols and protocol supplements, visit the [BruinIRB Resource Library](#)
- Be sure to check your BruinIRB [profile](#) to and edit your contact information as needed to ensure you receive correspondence when you submit in the system.
- For any questions, please email bruinirb@research.ucla.edu

THANK YOU FOR YOUR PATIENCE DURING THIS TRANSITION!

We appreciate your feedback
